

World Class Precision Engineering

UK MANUFACTURER
GLOBAL SUPPORT

Precision Gears,
Conveyor Chains,
Transmission Chains,
Sprockets,
Slats and Shafts.

- Established in the UK in 1973 and now with divisions in South East Asia and the USA.
- International reputation as a leading manufacturer and supplier of high quality engineered products.
- Reputation and expertise built from a sound background as a quality manufacturer of Conveyor Chains, Chain Wheels and Sprockets, Gears and component parts for a variety of applications.
- We are also able to provide various types of slat assemblies and shafts, enabling a complete solution for most types of conveyors and elevators.
- Operating up to seven days a week.
- Worldwide headquarters are situated on a 25,000m² purpose built site in Manchester, England with easy access to Manchester International Airport and the UK's national road and rail networks.
- Working closely with large international companies, it is expected that we supply consistent, high quality products with full production traceability, material certification and inspection of components and finished products as part of our ISO 9001:2008 certification.
